

A pure, gentle and highly nutritious alternative for sensitive tummies.

Discover Nature One Dairy's Premium Goat Milk Formula, made from the finest Australian goat milk enriched with essential vitamins and minerals. Specially crafted for children with sensitive tummies, this gentle and easy-to-digest formula offers an alternative to traditional cow and soymilk formulas. It provides comprehensive nutrition to support your child's healthy growth and development.

Proudly made in Australia, our Premium Goat Milk Formula promotes healthy digestion while boosting immunity, brain function, and eye development. It delivers the energy and nourishment your little one needs to thrive, helping them grow strong and healthy at every growing stage.

**Strong immunity begins with gentle goat milk.
Give your child the nourishment they deserve.**

***Gentle on Tummies,
Big on Nutrition!***

**Premium
Goat Range**

- ✓ Australian-made goat milk
- ✓ Easy to digest with lower lactose content
- ✓ Gentle on tummies with natural A2 protein
- ✓ Nutrient-rich with lutein, DHA & ARA
- ✓ Reduce allergies and digestive discomfort
- ✓ Strong immunity with prebiotics & probiotics

NUTRITIONAL HIGHLIGHTS OF GOAT MILK:

DHA & ARA

Key building blocks for brain and eye development.

PROBIOTICS

Fight off bad bacteria and maintain a healthy digestive system.

PREBIOTIC FOS

Increases overall gut health.

TAURINE

Supports overall mental and physical development.

ZINC

Necessary for normal immune system function and cell division.

IRON

Contributes to normal cognitive function and development.

CHOLINE

Contributes to the maintenance of normal liver function.

CARBOHYDRATES

Source of energy to support growth and activity.

LUTEIN

Promotes eye health and healthy skin.

WHY CHOOSE OUR GOAT MILK?

Australian-Made, Even Better Taste

Made from Australian goat milk, known for its high nutritional value, creamier taste and adherence to strict regulatory standards.

Easy to Digest with Lower Lactose Content

Goat milk naturally contains less lactose and features smaller fat globules, making it easier to digest and is an excellent alternative for children with cow milk sensitivities.

Natural A2 Protein Suitable for Sensitive Tummies

Goat milk's smaller fat globules ease digestion, while the A2 milk protein helps minimise digestive discomfort, reducing the risk of colic, bloating and other digestive issues. Its oligosaccharide composition closely mimics breast milk, making it extra gentle on little tummies.

Boost Immune Strength with Prebiotics & Probiotics

Prebiotics encourage the growth of beneficial gut bacteria, while probiotics introduce healthy bacteria into the digestive system. Together, they strengthen your child's defenses against illness and promote a more resilient immune system.

Enriched with DHA & ARA

Essential for cognitive and visual development, DHA and ARA support the growth of neural tissues, enhancing brain function and improving vision clarity in growing children.
